Members of the Stakeholder Advisory Group

Wallace A. Carter, M.D., is Co-Chair of the Stakeholders Advisory Group and member of the Becoming Certified Task Force. He is currently Professor of Emergency Medicine and Vice Chair of Clinical and Faculty Affairs for the department of Emergency Medicine, and Senior Associate Medical Director, Emergency Medical Services at the New York Presbyterian–Weill Cornell Medical College. He was elected to the ABEM Board in 2016 and serves as an oral examiner and editor of the LLSA. Dr. Carter completed his residency in Emergency Medicine at the Albert Einstein College of Medicine at Bronx Municipal Hospital Center, Bronx, New York.

Hala Durrah, M.T.A., is Co-Chair of the Stakeholders Advisory Group and member of the Becoming Certified Task Force. She was elected as the Board's first public member director in 2020. She is an independent patient family engagement consultant and nationally recognized policy advocate. Her passion for patient family engagement work stems from her experience as a mother of a chronically ill child who has undergone two liver transplants and a bone marrow transplant. As a subject matter expert and policy analyst in patient partnership and engagement, Ms. Durrah serves as a consultant on projects focused on patient-centered measurement, quality improvement, patient safety, health equity, child health, health care transformation, medical education and certification, patient-partnered research, and patient experience. She serves on several national committees and boards. Ms. Durrah is a Ph.D. student in Public Policy with a focus on health policy at the University of Maryland at Baltimore County.

Linelle F. Campbell, M.D., is an Attending Physician at Jacobi Medical Center and serves as the Associate Director for Equity within Quality and Safety at Jacobi Medical Center and North Central Bronx Hospital. Dr. Campbell received her medical degree from Howard University College of Medicine. She was one of the inaugural fellows for the NYC Health and Hospitals' Healthcare Administrative Scholars Program, where her focus was achieving health equity through the lens of quality improvement, patient safety, and community engagement. Dr. Campbell is involved in research about medical overuse and health equity through quality improvement. Dr. Campbell's other interests include mentoring, increasing the recruitment of individuals historically left out of medicine, writing health equity and social emergency medicine-focused curriculum, and workplace violence.

Ugo A. Ezenkwele, M.D., M.P.H., is Chief of Emergency Medicine at Mount Sinai Queens and Associate Professor of Clinical Emergency Medicine at Icahn Mount Sinai School of Medicine. He received a medical degree and a master's in public health from the Johns Hopkins University School of Public Health. He then was granted a one-year William J. Fulbright award that resulted in the development of trauma and injury surveillance systems in the Caribbean. After this, Dr. Ezenkwele completed his residency training in Emergency Medicine at the University of Pennsylvania. He has lectured on numerous Emergency Medicine topics, most notably injury prevention, diversity in medical education, health disparities, unconscious bias, and ED operations. He was recently named to the Crain's New York Business Notable Black Leaders.

and Executives for 2021. He also is a councilor for the American College of Emergency Physicians and an ABEM oral examiner.

Juliana Karp, M.D., is an emergency physician who has practiced for the past 25 years at Lakeland Regional Health in Lakeland, Florida, a community-based, not-for-profit hospital. She is proud of her longevity at the institution where the emergency department was ranked the busiest single site ED in the country in 2018, with over 200,000 visits. She has been an ABEM oral examiner since 2000. Dr. Karp completed her EM residency training at Denver Health Medical Center. She is passionate about the ever-changing specialty of EM.

Lisa Moreno-Walton, M.D., M.S.W., M.S.C.R., is Professor of Emergency Medicine, Director of Research, Diversity, and the Latino Scholars Program at Louisiana State University-New Orleans. She has won a number of education awards. She is an NIH PRIDE research scholar and a prolific researcher, with over 120 publications and ten book chapters. A global health consultant and educator, Dr. Moreno- Walton has served in over 25 countries, focusing on the development of research and elimination of healthcare disparities for women, underrepresented groups, and the under- resourced. She has mentored over 350 students, residents, and junior faculty around the world. She serves as an ABEM oral examiner.

Adedamola A. Ogunniyi, M.D., is an attending physician in the Department of Emergency Medicine at Harbor-UCLA Medical Center, where she has serves as an Associate Program Director. She completed her residency training at Harbor-UCLA, followed by a fellowship in Global Health at the same institution, working on projects in rural South Sudan and in Amman, Jordan. Her academic interests are in medical education, simulation, global health, and social Emergency Medicine, with a goal of integrating these into residency training curricula.

Onyekachi T. Otugo, M.D., M.P.H., attended Northwestern Feinberg School of Medicine where she obtained her M.D. and M.P.H. degrees, followed by residency training at Cleveland Clinic Akron General. Prior to attending medical school, she worked at the Office of Women's Health where she conducted research on the inclusion of women in clinical trials. Recently Dr. Ogunniyi completed a Health Policy Research and Translation fellowship at Brigham and Women's Department of Emergency Medicine where she now serves as the Director of Research in the Office of Inclusion, Diversity, Equity and Social Justice (IDEaS).

Kimberly Richardson is a two-time cancer survivor of both ovarian and breast cancer who has been active in all forms of patient advocacy. She is the Founder of Survivors Advising Scientists, an initiative that fosters collaboration between cancer patients and researchers. Ms. Richardson is a member of several National Cancer Institute advisory groups on disparities in ovarian and breast cancer, serves on patient expert councils for global organizations, and has organized federal, state, and local initiatives to improve minority participation in clinical trials.

Christopher S. Sampson, M.D., completed his Emergency Medicine Residency at Washington University in Saint Louis. Prior to medical school he worked as an EMT and flight Paramedic. He is board certified in both Emergency Medicine and Emergency Medical Services. After a decade in Saint Louis, he joined the faculty at University of Missouri School of Medicine in 2013 and was part of the team that founded the Emergency Medicine residency program. He served as Program Director of the Emergency Medicine residency and currently is the Director of Education and Clinical Research. He also serves as medical director for multiple EMS agencies in the central Missouri region. He internationally recognized as an expert in medical simulation education. He serves as an ABEM oral examiner.
